Education

BSc in Game Design and Development & Virtual Environments

UDIT
2022 - 2026
GPA: 8.74 / 10

Soft Skills

- Commitment and adaptability
- Creativity and innovation
- Passion for design and versatility

Languages

- Spanish (Native)
- English (Fluent)

Work Experience

Gaya Studios - Internship

Feb. 2026 - May 2026

Realistic hard-surface 3D modeling for production in Blender, covering the full high-to-low poly pipeline, clean bakes, UV mapping, and texturing in Substance 3D Painter.

La Mota de Polvo - Internship

Ja. 2025 - Apr. 2025

2D animation and post-production for an illustrated storybook: asset breakdown in Photoshop layers, scene animation in After Effects, and final video editing in Premiere Pro.

El Laurel Catering

Aug. 2021 - Present

Balanced studies with waitressing: from direct customer service to team coordination and leading front-of-house staff.

Hard Skills

- **3D hard-surface** modeling (props and environments) and stylized characters using Blender and ZBrush.
- Full high-to-low poly pipeline: optimized retopology, UV unwrapping, texel density management, and clean baking in Marmoset Toolbag and Substance Painter.
- PBR texturing and material creation in Substance 3D Painter and Substance 3D Designer.
- Real-time lighting (Lumen), post-processing, and set dressing in Unreal Engine 5.
- Proficiency in Adobe Creative Cloud: Substance 3D Painter, Substance 3D Designer, Photoshop, Premiere Pro, and Illustrator.

Academic Experience

Academic Projects at UDIT

2022 - 2026

Creation of real-time environments in Unreal Engine 5, 3D prop modeling, and stylized character art.

Video game development within multidisciplinary teams, handling level design tasks, asset production, and technical integration in Unreal Engine and Unity.
